Understood - we actually have surveys sitting here on my desk that haven't gone out yet, so the question is would you still need them in about a month?

We still have had zero complaints from any of the 100 hardware stores/nurseries who have signed on to this.

Hello Chris,

I hope you are well. If the hardware store information is available we are interested in seeing it. Please don't take this as me asking or telling SF DOE to do anything, but if you have already gathered it we will certainly look at it.

Best,

Rusty_____

=====

Rusty,

Thank you very much for including me in this call - as you know we are very interested in this issue. Unfortunately I have a medical appointment at that time and will probably not be able to participate. I will see whether our consultant, Kelly Moran, is available instead.

One question for you: Is your office still looking for feedback from customers at hardware stores where the contested bait products have been discontinued? We have a pending survey of our participating vendors but I'm not sure if the results are still of use in the EPA process.

Thank you,

Chris Geiger, Ph.D.
